

GT Sonic

Ultrasonic Cleaners

Available in 3 Litre, 6 Litre, 9 Litre & 13 Litre capacity. Ultrasonic cleaning uses ultra sonic waves induced by a high frequency transducer to agitate a liquid. The agitation produces high forces on contaminants adhering to instruments.

Features

- Normal and soft power control
- Degas function
- Adjustable time setting
- Adjustable temperature control
- User-friendly, clear panel controls
- Memory function

Digital display

High performance transducer
